

APPENDICES

Provisional Licensee

Fall 2016 Consultations

The Engineering and Geoscience Professions Act

The Association of Professional
Engineers and Geoscientists of Alberta

Appendix 1 – Provisional Licensees

Existing Legislation

The following text is quoted from the legislation and has not been modified to match APEGA's writing style.

Engineering and Geoscience Professions Act General Regulation

Definitions

1 In this Regulation,

(c) “licensee” includes a provisional licensee except where this Regulation specifically provides to the contrary.

Part 1 Membership in the Association

Division 5 Professional Members

Eligibility

13(1) A person who meets the following requirements and applies to the Registrar for registration is entitled to be registered as a professional member:

- (a) the applicant is a Canadian citizen or is lawfully admitted to Canada for permanent residence;
- (b) the applicant is of good character and reputation;
- (c) the applicant has a knowledge of the Act and the regulations under the Act, and general knowledge related to the practice of engineering or geoscience, which has been demonstrated by passing an examination that is prescribed by the Board of Examiners;
- (d) the applicant demonstrates to the Board of Examiners that the applicant has a proficiency in the English language that is sufficient to enable the applicant to responsibly practise the profession of engineering or geoscience;
- (e) the applicant meets one of the following requirements:
 - (i) the applicant is enrolled as a member-in-training and has obtained at least 4 years of experience in work of an engineering or geoscientific nature that is acceptable to the Board of Examiners;
 - (ii) the applicant is enrolled as a student under section 6(b)(ii) and
 - (A) has completed all examinations prescribed by the Board of Examiners, and
 - (B) has obtained at least 8 years of experience in work of an engineering or geoscientific nature that is acceptable to the Board of Examiners, at least one year of which is obtained after completion of the examinations referred to in paragraph (A);
 - (iii) the applicant is admitted as an examination candidate and
 - (A) has completed the examinations referred to in section 8(b), and
 - (B) has obtained at least 4 years of experience in work of an engineering or geoscientific nature that is acceptable to the Board of Examiners;
 - (iv) the applicant is not in a register or record referred to in subclause (i), (ii) or (iii), but has the combined academic qualifications and experience acceptable to the Board of Examiners that would be required for registration as a professional member had the applicant progressed through one of those registers or records.

- (2)** Notwithstanding subsection (1), an applicant is entitled to be registered as a professional member if
- (a) the applicant is of good character and reputation, and
 - (b) the applicant is registered and in good standing with a professional regulatory organization under an Act of another province or territory of Canada to perform an occupation that, in the opinion of the Board of Examiners, is substantially equivalent, in terms of scope of practice and competencies, to that of a professional member.

Division 6 Licensees

Registration as a provisional licensee

14.1(1) The Board of Examiners may approve the registration of a person as a provisional licensee if

- (a) the person is legally entitled to work in Canada, whether or not the person meets the requirements of section 13(1)(a),
- (b) the person meets all of the other requirements of section 13 for registration as a professional member, except the requirement set out in section 13(1)(e),
- (c) the person has academic qualifications and experience in work of an engineering or geoscientific nature that is acceptable to the Board of Examiners, and
- (d) the Board of Examiners considers that it is appropriate to register the person as a provisional licensee.

(1.1) Notwithstanding subsection (1), an applicant is entitled to be registered as a provisional licensee if

- (a) the applicant is of good character and reputation, and
- (b) the applicant is registered and in good standing with a professional regulatory organization under an Act of another province or territory of Canada to perform an occupation that, in the opinion of the Board of Examiners, is substantially equivalent, in terms of scope of practice and competencies, to that of a provisional licensee.

(2) A provisional licensee may practise engineering or geoscience only under the supervision and control of

- (a) a professional member,
 - (b) a licensee, other than a provisional licensee, or
 - (c) a registered professional technologist
- who has appropriate training and experience in the same area of practice.

(3) A provisional licensee may not vote in any matter affecting the Association or hold office in the Association.

(4) Subject to subsection (5), no person may remain in the register of provisional licensees for more than 2 years.

(5) The Council may, in a particular case, extend the time period in subsection (4) to not more than 4 years where the Council considers it appropriate to do so.

Domestic trade agreements

14.2 Where section 14.1(1.1) applies in respect of an applicant and the professional regulatory organization is in a province or territory that is a signatory to one or more domestic trade agreements that is in force in Alberta, the applicant's application must be dealt with in a manner consistent with the applicable domestic trade agreements.

Part 2 Continuing Professional Development Program

Interpretation

15.1 In this Part, "licensee" does not include provisional licensee.

Part 3 Practice Review Board

Interpretation

20.1 In this Part, "licensee" does not include provisional licensee.

Part 7 Registration of Permit Holders

Interpretation

47.1 In this Part, "licensee" does not include a provisional licensee.

Part 8 General

Use of stamps and seals issued to members

54(9) In this section, "licensee" does not include a provisional licensee.

APEGA Bylaws

Part 11 Register of Members

Content

31(1) The Registrar shall be responsible for maintaining an up-to-date register providing a record of

- (a) professional members,
- (b) licensees,
- (c) permit holders,
- (d) Life Members, Honorary Life Members, and Honorary Members,
- (e) members-in-training,
- (f) examination candidates,
- (g) students,
- (h) joint firms, and
- (i) restricted practitioners, and
- (j) provisional licensees, and
- (k) professional licensees.

Mailing addresses

32 Professional members, licensees, permit holders, professional licensees, provisional licensees, Life Members, Honorary Life Members, Honorary Members, members-in-training,

examination candidates, students, joint firms and certificate holders shall provide the Registrar with their current mailing addresses and advise the Registrar forthwith in writing of any change in address.

Onus to respond

32.1 Professional members, licensees, permit holders, life members, professional licensees, provisional licensees, members in training, joint firms, or certificate holders, shall respond promptly and appropriately to any duly served communication of a regulatory nature received from the Association that contemplates a reply.

Appendix 2 – Provisional Licensees Canadian Engineering and Geoscience Associations Summary and Analysis

This table summarizes the research on provisional licensees in other Canadian engineering and geoscience associations in Canada. Appendix 2A contains the relevant legislative provisions that form the basis of this summary.

The research shows that APEGBC, APEGA, APEGM, PEO, and Engineers PEI have a provisional licence and/or provisional membership for applicants who meet all requirements other than the one year of equivalent Canadian experience. Provisional licensees or members can only practise under supervision or, in the case of Engineers PEI, in accordance with a collaborative agreement.

Professional Association	The Association of Professional Engineers and Geoscientists of British Columbia (APEGBC)	The Association of Professional Engineers and Geoscientists of Alberta (APEGA)	The Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS)	Engineers Geoscientists of Manitoba (APEGM)	Professional Engineers Ontario (PEO)
Provisional membership or licence	Provisional membership	Provisional licence	Neither	Provisional membership	Provisional licence
Criteria	Applicant meets other requirements for registration but does not have at least one year of experience, training, and development in a Canadian environment that is satisfactory to the council.	Applicant meets other requirements for registration but does not have one year of equivalent Canadian experience (per Board of Examiners' policy).	N/A	Applicant meets other requirements for registration other than the 12 months of work experience in a Canadian environment.	Applicant has met all registration requirements except the Canadian experience requirements set out in the regulations.
Duration	Valid for one year and may be extended by the registrar for an additional year	No person may remain in the register of provisional licensees for more than two years. Council may extend the time to not more than four years.	N/A	Converts to member-in-training status if applicant has not yet registered as a professional member at the end of 36 months of provisional membership.	Valid for one year and may be renewed once for up to 12 months.

Professional Association	The Association of Professional Engineers and Geoscientists of British Columbia (APEGBC)	The Association of Professional Engineers and Geoscientists of Alberta (APEGA)	The Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS)	Engineers Geoscientists of Manitoba (APEGM)	Professional Engineers Ontario (PEO)
Conditions	<p>Can only practise under direct supervision of a professional engineer or professional geoscientist</p> <p>Not entitled to use reserved titles, seal or stamp, vote, or stand for election</p>	<p>Can only practise under the supervision and control of a Professional Member, a Licensee (other than a Provisional Licensee), or a Registered Professional Technologist</p> <p>May not vote</p>	N/A	<p>Cannot use P.Eng. or P.Geo. but may continue to use engineer-in-training or geoscientist-in-training. A professional engineer or professional geoscientist must seal any work.</p> <p>Provisional member and his or her supervisor must submit semi-annual work-experience reports during the period of the provisional membership.</p>	<p>Entitled to only practise under the supervision of a professional engineer and shall not issue a final drawing, specification, plan, report, or other document unless the supervisor also signs and dates it and affixes his or her seal.</p>
Notes				<p>Manual of Admissions states that a provisional member will revert to an engineer-in-training or geoscientist-in-training if not registered as a practicing member within 48 months of becoming a provisional member.</p>	<p>Every holder of a provisional licence must have a seal of a design approved by the Council, the impression of which includes prescribed specifications.</p>
