Professional Engineers and  
Geoscientists of Alberta**

Financial Statements

**December 31, 2021**

(in thousands of dollars, where indicated)

## Independent auditor's report

To the Members of Association of Professional Engineers and Geoscientists of Alberta

---

### Our opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Association of Professional Engineers and Geoscientists of Alberta (the Association) as at December 31, 2021 and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

#### What we have audited

The Association's financial statements comprise:

- the statement of financial position as at December 31, 2021;
- the statement of changes in net assets for the year then ended;
- the statement of operations for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

---

### Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Association in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

---

### Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

PricewaterhouseCoopers LLP  
Stantec Tower, 10220 103 Avenue NW, Suite 2200, Edmonton, Alberta, Canada T5J 0K4  
T: +1 780 441 6700, F: +1 780 441 6776

In preparing the financial statements, management is responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Association's financial reporting process.

---

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

### 1 Nature of the organization

The Association of Professional Engineers and Geoscientists of Alberta (APEGA) is incorporated under the provisions of the *Engineering and Geoscience Professions Act of Alberta* with the mandate of serving the public interest by regulating the practices of engineering and geosciences in Alberta, by providing leadership for its professions and by upholding its members in their professional practices. APEGA is a tax-exempt organization under Section 149(1)(l) of the *Income Tax Act (Canada)* and therefore is not subject to federal or provincial income taxes.

### 2 Summary of significant accounting policies

These financial statements were prepared in accordance with Part III of the Chartered Professional Accountants of Canada (CPA) Handbook – Accounting Standards for Not-for-Profit Organizations. The significant accounting policies are summarized below.

#### Revenue recognition

Revenue is recognized when evidence of an arrangement exists, the service has been rendered, the price is determinable and ultimate collection is reasonably assured.

Specific revenue recognition policies include the following:

- Member dues and permit fees are set annually by Council and recognized as revenue proportionately over the fiscal year to which they relate.
- Registration fees are recognized when registration occurs and fees are received.
- Examination fees are recognized when the examination is presented.
- Affinity program revenues are recognized when earned.
- Program fees are recognized when programs occur.
- General revenue is recognized when the related services are provided or goods are shipped.
- Investment income includes interest and dividends. Interest is recognized on an accrual basis and dividend income is recognized on the ex-dividend date.

APEGA follows the deferral method of accounting for contributions, which include grants and donations. Grants are recognized in the accounts when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Grants are deferred when initially recorded in the accounts and are recognized as revenue in the year in which the related expenses are recognized. Donations are recorded when received, since pledges are not legally enforceable claims. Unrestricted contributions are recognized as revenue when initially recorded in the accounts. Externally restricted contributions are deferred when initially recorded in the accounts and recognized as revenue in the year in which the related expenses are recognized.

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

### Cash and cash equivalents

Cash and cash equivalents include cash on hand and short-term investments with periods to initial maturity of less than 90 days.

### Financial instruments

Investments are recorded at fair value. Transactions are recorded on a trade date basis and transaction costs are expensed as incurred.

Other financial instruments, including cash and cash equivalents, accounts receivable and accounts payable and accrued liabilities, are initially recorded at fair value and subsequently measured at amortized cost.

### Tangible capital assets

Tangible capital assets are recorded at acquisition cost. Amortization is determined using the straight-line method over the estimated useful lives of the assets as follows:

Computer hardware	4 years
Leasehold improvements	lease term
Audio/visual equipment	5 years
Furniture and equipment	10 years

### Intangible assets

Intangible assets are recorded at acquisition cost.

Costs associated with maintaining software programs are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by APEGA are recognized as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software;
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available; and
- the expenditure attributable to the software during its development can be reliably measured.

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

Developed software includes the membership database and the document management system. Intangible assets are amortized from the point at which the asset is ready for use.

Amortization is determined using the straight-line method over the estimated useful lives of the assets as follows:

Computer software	3 – 5 years
Membership database	6 years

### Leases

Leases are classified as capital or operating leases. Leases that transfer substantially all of the benefits and risks incidental to the ownership of property are classified as capital leases. All other leases are accounted for as operating leases, wherein rental payments are expensed on a straight-line basis over the term of the lease.

### Lease inducements

Lease inducements are recorded as a liability and amortized against rent expense on a straight-line basis over the term of the lease.

### Defined contribution pension plan

APEGA has established a defined contribution pension plan for its employees under which employees contribute up to 6% of their qualifying earnings which is matched by APEGA. Additional employee contributions are allowed but are not matched. Employer contributions to the defined contribution pension plan are recognized on the accrual basis.

### Defined benefit pension plan

APEGA closed entry to the defined benefit pension plan at December 31, 2012. APEGA accounts for its defined benefit pension plan using the immediate recognition method. APEGA recognizes the amount of the accrued benefit obligation, net of the fair value of any assets measured at the year-end date, adjusted for any valuation allowance, in the statement of financial position. The accrued benefit obligation for the pension plan is determined based on an actuarial valuation report prepared for funding purposes, which is required to be prepared at least on a triennial basis. During those years where an actuarial valuation is not prepared, APEGA estimates the obligation.

The annual current service and finance costs of the defined benefit pension plan are recorded as pension benefit costs within salaries and benefits in the statement of operations. Remeasurements and other items, which include the difference between the actual return on plan assets and the return, calculated using the annual discount rate, actuarial gains and losses, past service costs and gains and losses arising from settlements and curtailments, are recorded as pension remeasurements and other items in the statement of changes in net assets.

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

### **Reserves**

APEGA Council has established two internally restricted reserves. The legislative review reserve is designated for possible future expenditures for legislative review initiatives or changes. The regulatory risk management reserve is to provide capacity to APEGA to mitigate risk while delivering its mandate to protect the public.

### **Contributed materials and services**

APEGA benefits from donated services in the form of volunteer time for various committees that are integral to fulfilling APEGA's mandate. Due to the uncertainty of measurement, contributed materials and services are not recognized in the financial statements.

### **Foreign currency translation**

Revenues and expenses have been translated at the monthly average rates of exchange during the year. Foreign exchange gains and losses are included in the statement of operations.

### **Use of estimates and key judgments**

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, related amounts of revenues and expenses and disclosure of contingent assets and liabilities. The most significant estimates made by management include the allowance for doubtful accounts, the estimated useful lives of tangible capital and intangible assets and assumptions used in the valuation of pension benefit obligations. Actual results could differ materially from those estimates.

### **Managing capital**

APEGA defines its capital as the amount included in its net asset balances. APEGA's objective when managing its capital is to safeguard its ability to continue as a going concern so that it can continue to fulfill its mandate as described in note 1. While there are no external restrictions on any of the net assets, Council has appropriated certain of the funds for specific purposes as described in reserves. Management continues to have a reasonable expectation that APEGA has sufficient resources to achieve its mandate.

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

(in thousands of dollars, where indicated)

### 3 Tangible capital assets

	2021		2020	
	Cost \$	Accumulated amortization \$	Net \$	Net \$
Computer hardware	2,041	1,440	601	739
Leasehold improvements	7,401	5,031	2,370	3,188

Furniture and equipment	1,233	775	458	555
	<b>11,063</b>	<b>7,524</b>	<b>3,539</b>	<b>4,607</b>

### 4 Intangible assets

	2021		2020	
	Cost \$	Accumulated amortization \$	Net \$	Net \$
Computer software	3,337	1,681	1,656	2,154
Membership database	5,462	520	4,942	4,176
	<b>8,799</b>	<b>2,201</b>	<b>6,598</b>	<b>6,330</b>

### 5 Investments

Investments consist of fixed income and equity-based instruments. The investment portfolio, managed by a third-party investment manager, is subject to an investment policy set by Council. Fixed income investments, consisting of federal, provincial and corporate bonds, are capable of prompt liquidation. The equity-based investments are widely held, while diversified and are traded on a regular basis at the discretion of the investment manager.

	2021 \$	2020 \$
Fixed income	8,730	8,090
Canadian equity funds	2,183	1,863
International equity funds	9,147	8,309
	<b>20,060</b>	<b>18,262</b>

Fixed income securities comprise a weighted average term of 2.03 years (2020 – 2.23 years) to maturity with a yield of 2.71% (2020 – yield of 2.4%).

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

### 6 Credit facility

APEGA has available a revolving line of credit with Royal Bank of Canada (RBC). The total credit limit available is \$2,000 and amounts are repayable on demand. The facility is secured by APEGA assets and bears interest at Prime + 0.5%. There was no balance outstanding as at December 31, 2021 (2020 – \$nil).

### 7 Pension plans

#### a) Defined benefit pension plan

	2021 \$	2020 \$
Defined benefit pension plan surplus		
Plan assets at fair value	22,908	21,619
Accrued benefit obligations	(17,929)	(17,217)
	<u>4,979</u>	<u>4,402</u>

Contributions to the plan during the year by APEGA were \$417 (2020 – \$488) and by employees were \$107 (2020 – \$126). Benefit/termination payments from the plan during the year were \$708 (2020 – \$697).

The significant actuarial assumptions adopted in measuring APEGA's accrued benefit obligation and pension benefit costs include an annual discount rate of 5.25 % (2020 – 5.25%), an annual rate of return on plan assets of 5.25 % (2020 – 5.25%), an annual rate of salary increase of 3.5% (2020 – 3.5%) and an annual inflation rate of 2.5% (2020 – 2.5%).

The most recent actuarial valuation of the plan for funding purposes was performed as at December 31, 2019.

#### b) Defined Contribution pension plan

Total contribution plan expense for the year was \$705 (2020 – \$644).

### 8 Commitments and contingencies

#### a) Commitments

APEGA is committed to lease agreements relating to its office premises in Edmonton and Calgary, as well as certain office equipment. Minimum future lease payments under the agreements are as follows:

	\$
2022	2,795
2023	2,252
2024	2,726

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

2025	474
2026	474
Thereafter	<u>3,527</u>
	<u>12,248</u>

### b) Contingencies

From time to time, legal claims may be pending against APEGA in the normal course of operations. Management is of the opinion that any pending litigation will not have a material adverse impact on APEGA's financial position or the results of its operations.

## 9 Financial instruments

APEGA is exposed to various financial risks through transactions in financial instruments. The fair value of financial instruments carried at amortized cost approximates their carrying amounts due to the short-term maturity of these instruments.

### Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. APEGA is exposed to credit risk from accounts receivable. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information. Management has established an allowance for doubtful accounts of \$196 (2020- \$160). APEGA has a significant number of members, which minimizes concentration of credit risk. During 2020 and 2021, APEGA's exposure to credit risk increased due to the special considerations and potential effects of COVID-19. APEGA considered its experience during the government restrictions and in the past economic downturns in assessing the credit risk associated with amounts due and concluded that there was not a significant impact on the collectability of receivables

APEGA's investment in bonds and interest accrued thereon is primarily with federal and provincial governments, with a portion allocated to investment-grade corporate bonds concentrated in Canada.

A portion of the assets held in the pension plan is exposed to credit risk, similar to the risks on APEGA's bond portfolio. In the event of loss in the pension plan, APEGA would be obligated to fund any deficiency that may arise. The pension fund invests in a mix of government and investment-grade corporate bonds.

Cash and cash equivalents are maintained with a Schedule I financial institution. There has been no change to credit risk from the prior year.

### Market and other price risk

APEGA's equity interests are primarily focused on the Canadian public market and are subject to fluctuations due to changes in market prices of individual securities, general market and industry trends, changes in interest rates, creditworthiness and foreign exchange rates. APEGA is also exposed to interest rate risk through its

# Association of Professional Engineers and Geoscientists of Alberta

## Notes to Financial Statements

December 31, 2021

---

(in thousands of dollars, where indicated)

holdings of bonds. Market and other price risk is directly influenced by the volatility and liquidity in the markets in which the related underlying assets are traded. The COVID-19 pandemic has increased market risk as it has and may continue to create volatility in capital markets. All investments are of large market entities regularly traded on the exchanges.

A portion of the assets held in the pension plan is exposed to market and other price risk, similar to the risks on APEGA's investment portfolio. In the event of loss in the pension plan, APEGA would be obligated to fund any deficiency that may arise. The pension fund invests in a mix of large market entities or funds regularly traded on the exchanges.

There has been no change to these risks from the prior year.

### **Liquidity risk**

APEGA is exposed to the risk that it will encounter difficulty in meeting obligations associated with its financial liabilities. The investments may create liquidity risk if APEGA is required to sell at a time when the market for the investments is unfavourable. COVID-19 has increased uncertainty and may adversely impact APEGA's cash flows, the value of investments and liquidity. If there are short-term cash flow deficiencies, APEGA will access its short term and long terms investments and line of credit to fund those shortages (note 6).

### **Currency risk**

Currency risk is the risk to APEGA's earnings that arise from fluctuations of foreign exchange rates and the degree of volatility of those rates. APEGA is exposed to foreign currency exchange risk on cash and investments held in US dollars. APEGA does not use derivative instruments to reduce its exposure to foreign currency risk. Based on the volume and amount of the transaction in US dollars during 2021, the currency risk exposure for APEGA is assessed as low.

## **10 Comparative figures**

Certain comparative figures have been reclassified to conform to the current year's presentation.
